TEACHING-LEARNING AND EVALUATION

2.7.1 STUDENTS SATISFACTION SURVEY (2022-2023)

The students are an integral part of our institution. In order to capture the experiences of students for the academic session 2022-2023, a questionnaire of 20 parameters has been framed and forwarded online. The questionnaire of the survey includes 20 questions to which responses are given anonymously by the students of the institution with the help of Google Forms. The survey components include an institute level feedback on infrastructure and learning experiences. Student Satisfaction Survey(SSS) was conducted during the month of February, 2024. The outcome of the survey will help to reach the objective of the institution. This will also help to initiate remedial action to improve the facilities whenever and wherever it is required. The result of the survey will provide a base to plan for the future. A Total of 88 students responded to the Student Satisfaction Survey. The analysis of the survey conducted shows that most of the students were highly satisfied with the Teaching Learning Process of the institution. Students have expressed satisfaction over the syllabus covered in their classes and laboratories.
